Brandon-

You probably know this info already, but just thought I would copy you on it given our conversation this morning.

FYI.

Sulfolane in the PPRTV queue & also being considered for IRIS assessment.

Subject: Sulfolane

I have been assured by STSC that sulfolane is in the queue for a PPRTV assessment this coming fiscal year. Sulfolane has been nominated to OSWER also for consideration for the IRIS program. I am forwarding some information from ATSDR that may be of use.

Hi David

Here is a copy of the ATSDR health consultation. Let me know if you need anymore information on the history of the site.
